

10/20/04

To whom it may concern:

K-LOVE radio is a very important part of my families and my life. It is a positive and encouraging radio station that helps us to live life more productively and caringly. If K-LOVE radio were to be taken off the air, it would take away one of the few positive voices of love and caring that is provided to my local community. The positive influence that K-LOVE radio has on the people listening to it, can only spill over to others in our community and therefore is a benefit to ALL the members of my community. Losing K-LOVE radio would be a travesty to me, my family, and my community.

Sincerely,  
Scot Thomasson
